

Module 9: OpsWorks Assignment

1. AWS OpsWorks Stacks is no longer accepting new customers.

The screenshot displays the AWS OpsWorks Stacks console. The main heading is "Add stack". Below it, the question "Which type of stack do you want to create?" is followed by three options: "Sample stack", "Chef 12 stack", and "Chef 11 stack". The "Sample stack" option is selected, leading to a sub-section titled "Create a Chef 12 sample stack with a Node.js app". This section includes a description of the stack and a form for "Operating system type" with radio buttons for "Linux" (selected) and "Windows". A red error message box is visible, stating "ServiceError: AWS OpsWorks Stacks is no longer accepting new customers." Below the error message are "Cancel" and "Create stack" buttons. The bottom of the screenshot shows the Windows taskbar with various application icons and the system clock indicating 05:53 PM on 12-09-2023.
